

Instead of forcing all broadcasters to go to the expense and trouble of taping and storing up to 90 days of programming, why not just require it of stations that have been cited or fined for past offenses or have a history of complaints against them. Most broadcasters do not air objectionable material yet would be forced to pay the price for the few operators who operate on the edge.

William W. Geasey
President, WNLB Radio Inc.
Operator of WZBB-FM
